

CONTENTS

ORIGINAL PAPERS

	Page
Astrophysics.—The variation of the sun. C. G. Abbot, F. E. Fowle, and L. B. Aldrich.....	309
Physics.—The melting points of some refractory oxides. C. W. Kanolt... New modified thermoelectric methods in calorimetry. Walter P. White	319 319
On the absorption of light in heterogeneous media. P. G. Nutting...	322
Radiotelegraphy.—Difference in strength of day and night signals in radiotelegraphy. L. W. Austin.....	326
Metallography.—Preliminary note on the critical ranges, A_3 and A_2 , of pure iron. G. K. Burgess and J. J. Crowe.....	329

ABSTRACTS

Meteorology.....	333
Climatology.....	334
Chemistry.....	334
Paleontology.....	336
Zoölogy.....	336
Bacteriology.....	337

PROCEEDINGS

The Washington Academy of Sciences.....	339
The Chemical Society.....	340
The Geological Society of Washington.....	343
